Public Service Commission

For the last two years Duke has raised the rate 20%. That is enough, if some of their investments have gone bad thats tough, some of mine have gone bad but no one is helping me out. How about you public service commission you want to give me some of my losses?

Therefore I am protesting Docket No. 2011-271-E. Or, you could do as you always do and that is give them one half of what they ask for because that is what they want in the first place.

your humble taxpaying servant
Donald Abbott
